

M25 - THE HIGH CAPACITY MACHINE

FACTS

Type: Compact continuous mixer M25

Use: Processing premixed mortar and plaster

Innovation: Homogeneous mixing

FEATURES

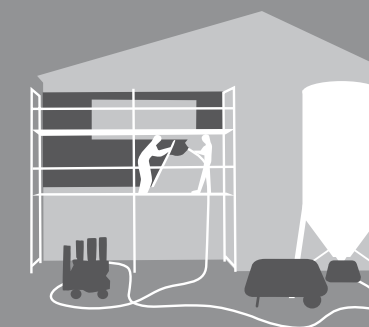

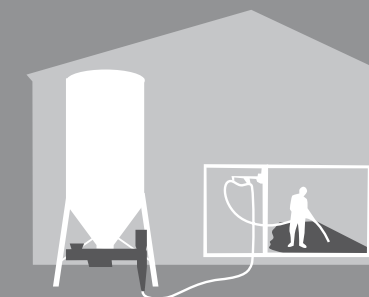

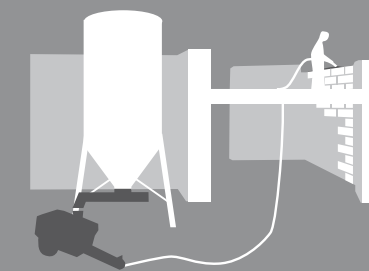

- Continuous mixer producing material of even consistency
- Homogeneous mixing of different premixed materials
- Easy to handle
- Ideal for small construction sites and restoration sites
- Proven components of high quality

Measuring tube (standard)

Feedhood for the conveyor system

TECHNICAL DATA

Mixing capacity*	approx. 25 l/min.
Engine	3 kW
Water pressure	2 bar
Voltage	400 V 50 Hz

MASS + WEIGHT

Length	1800 mm
Breite	600 mm
Container height	970 mm
Weight	90 kg

MACHINERY

Mortar hopper	incl. bag cutter
Tubular frame	with two wheels
Water armature	
with flow meter	100 – 1000 l/h
Transport/dosing screw	
Control panel	

* Approximate values that may vary according to type and consistency of the material used
